**RECEIVED**  
JAN 09 2003  
**GROUP 3600**

Dear Sir:

In response to the Election/Restriction Requirement dated December 26, 2002, Applicants respectfully submit the following election.

Applicants are required, in reply to this action, to elect a single species for purposes of narrowing the Examiner's search for each of elements A, B, C, D, and E. In addition, Applicants are required to elect a single catalyst species. Accordingly, Applicants elect the following species without traverse:

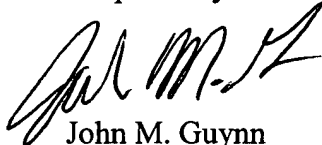

- A (fuel): nitroguanidine
- B (oxidizer): strontium nitrate
- C (slag trap): highly dispersed titanium dioxide
- D (slag former): iron (III) oxide
- E (binder): methylhydroxyethylcellulose
- Catalyst: platinum metal (Pt)

Claims 1-6 and 8-16 read on the elected species while claim 7 is withdrawn from consideration at this time because it relates to a non-elected species. Nevertheless, Applicants request reconsideration and allowance of claim 7 upon the allowance of a generic claim.

If the Examiner has any questions or comments regarding this response to the Election of Species Requirement, the Examiner is requested to initiate a telephonic interview with the undersigned attorney.

Dated this 6<sup>th</sup> day of January 2003.

Respectfully submitted,

John M. Guynn  
Attorney for Applicants  
Registration No. 36,153
